### NATIONAL ORGANIC WEEK

Friday 1st October to Sunday 10th October 2010

Now in its third year, National Organic Week is proudly presented by the Biological Farmers of Australia (BFA) in collaboration with the Centre for Organic & Resource Enterprises (CORE).

[www.organicweek.net.au](http://www.organicweek.net.au)

### What's NEW?

#### PRODUCE UPDATES

Apples all coming out of CA

Some with scalding  
New Season after Christmas

AUSTRALIAN Asparagus now in  
Price should start to come down  
as we get further into the season

QLD Onions have started !!  
They don't have the thick brown skins like the  
southern ones. But they won't shoot.  
They don't get any fresher than this !

Due to the unseasonal wet weather  
all of our carrot growers have had  
trouble getting in to dig.  
As such carrot sizes are slightly bigger than  
usual - They are still nice & juicy.

Register on our website  
to Order Online
